Subject: RE: HAMP Project Summary and Schedule

Hi Eric,

I shared the schedule with our enforcement folks yesterday and I know they are actively reviewing it. I can set up a call with them if you'd like to see if they have any questions about the schedule and/or can comment on the nature of the administrative orders. Would next Wednesday, September 5th at 2pm work for a call? If not, it's looking like we may have to do something the week of September 10th.

Sounds like I just need the cliff notes from your meeting with the HUC on Thursday. I can give you a call to follow-up and see if there is any EPA assistance needed to move things along after your meeting.

Thanks,

Emmanuelle

Subject: RE: HAMP Project Summary and Schedule

Hi Emmanuelle,

I believe the Thursday meeting will primarily be about the 10% engineering design and the IHS/HUC/Village/Tribal coordination required moving forward in accordance with the schedule. I'm sure you are welcome to attend the call but I'm not sure you will find it particularly pertinent to EPA's role.

Subject: RE: HAMP Project Summary and Schedule

Thank you Eric. This is very helpful. We plan to get the funding out the door by the end of September.

Next Thursday, September 6th in morning works for me for a call to discuss next steps. I can set up a call-in number for myself, or you can call me directly if everybody will be meeting in Flagstaff. I will touch base with Tim tomorrow to confirm the time.

Thank you!

Emmanuelle

Subject: HAMP Project Summary and Schedule

Hi Emmanuelle,

Attached is the HAMP Project Summary with associated IHS schedule. Please note that we estimated the timeline for extension of NTUA power by the HUC based on past conversations with HUC staff. The HUC may have an updated schedule they would like to share and could be incorporated into an updated IHS schedule. The key milestone in the schedule relates to the environmental clearances that are yet to be obtained and will require Village/Tribal/HUC input (ex. Revised water line route around 1st Mesa). Please let our IHS team know if you need any additional information to allow processing of the interagency agreement. The items outlined in red are the type of milestones I would typically expect to see in a compliance schedule. Please share with Mr. Rodriguez.

I discussed with Carrol Onsaе the attached and he suggested that he, Tim, James, Brad and I meet to discuss the project moving forward and in particular the 10% design report. James, Brad, and I are available on September 6 for a meeting in Flagstaff (location proposed by Carol) and would suggest a start time of 9 or 10 a.m. to allow for travel . Please send us a meeting invite once you have confirmed Tim's availability.
